WHY TIME MANAGEMENT ?

To utilise the available time in optimum manner to achieve one's personal and professional goals.

Set a time limit and stick to it.

Set the stage in advance : You are very busy with a deadline in light.

With casual droppers-in, remains standing.

Meet in other person's office

Get visitors to the point.

Be ruthless with time but gracious with people.

Have a clock available.

Use a call-back system for telephone calls.
